

GENERAL DESCRIPTION:

AKRIMACTIN 1.8EC™ is an insecticide and miticide for control of motile stages of spidermites and leafminer larvae on Roses, french beans and tomatoes.

AKRIMACTIN 1.8EC™ acts by blocking transmission signals between nerve cells and muscle cells.

MODE OF ACTION: Broad spectrum acaricide acting by blocking transmission signal between nerve cell or between nerve and muscle cell.

DIRECTIONS FOR USE:

Shake the concentrate well before use. Half fill the spray tank (knapsack) with water. Add the required volume of AKRIMACTIN 1.8EC™ to the spray tank (knapsack) while agitating, then fill the water to the required level and continue with stirring or agitating until the mixture is thoroughly uniform.

CROP	TARGET PEST	APPLICATION RATE
Roses	Leaf Miner, spider mites	0.5L/Ha in 1000L water or 10-20ml/20Lt water
French Beans	Leaf Miner, spider mites	0.5L/Ha in 1000L water or 10-20ml/20Lt water
Tomatoes	Leaf Miner, spider mites	0.5L/Ha in 1000L water or 10-20ml/20Lt water

RE-ENTRY PERIOD: 7 Hours

PREHARVEST INTERVAL: French beans and tomatoes 7 days (AKRIMACTIN 1.8EC™ should be applied up to the end of flowering or 40-45 days after planting.)

HAZARDS/PRECAUTIONS: Handling: Wear protective clothing namely overalls, footwear, gloves, and face shield when preparing and using the product. Do not eat, drink or smoke when working with the product.

STORAGE: Keep out of reach of children. Store in tightly closed original container in a cool dry well ventilated place, under lock and key so that unauthorized persons do not have access. Keep away from food, drinks and animal feeding stuffs.

PACKAGING DISPOSAL: Triple rinse, puncture and then destroy empty containers before burning or burying them away from natural water source and complying with national and international regulations.

ENVIRONMENTAL HAZARDS: AKRIMACTIN 1.8EC™ is toxic to aquatic animals. It has no effects on honey bees, beneficial insects and natural enemies when used as recommended. Do not contaminate streams, rivers or waterways with the chemical or used packs.

FIRST AID INSTRUCTIONS:

Skin contact: Take off clothing; wash the skin immediately with plenty of water and soap.

Eye contact: Hold the eye open and rinse thoroughly with running water.

If inhaled: Move the patient to fresh air. If the subject is not breathing, give artificial respiration, preferably mouth – to – mouth and call the doctor immediately.

If swallowed: if victim is fully conscious, immediately give 1 or 2 glasses of water to dilute, and get immediate medical attention. Do not induce vomiting unless authorized by a doctor.

Do not induce vomiting to unconscious person.
