

DESCRIPTION FOR USE: Apply ALFACYPER-M 100 E.C at the rate of 0.25ml per litre of water (5ml ALFACYPER-M in 20 litres of water) or 250ml in 1000L water.

CROP	TARGET PEST	RATE
French beans	Thrips, Aphids and Whiteflies	4Mls in 20Litres / 250Mls in 1000Litres of water

PHI - 3 days in French beans.

MIXING METHOD: Measure the required amount of ALFACYPER-M and dilute in a little amount of water. Stir thoroughly until homogenous mixture is achieved then add the balance of the required water volume. Give your crop full spray foliar cover.

PRECAUTIONS: Avoid eye and skin contact. Avoid eating, drinking or smoking while using ALFACYPER-M. Avoid spraying against the wind. Wear protective clothing like overalls, hat/head dress, gumboots, gloves and masks when spraying ALFACYPER-M. Wash thoroughly with soap and water after handling ALFACYPER-M. Any contaminated clothing should be removed and thoroughly washed after use.

STORAGE: Store in a cool dry place away from children, livestock and food in a well-ventilated store. Do not store half used ALFACYPER-M containers.

DISPOSAL: Rinse three times ALFACYPER-M empty containers and destroy by puncturing/burning to prevent re-use or bury away from water sources and human habitation. In accordance with disposal regulations.

ENVIRONMENTAL HAZARDS: Avoid contamination of ponds, waterways or ditches by ALFACYPER-M spills or by empty containers. ALFACYPER-M is harmful to fish and bees. Avoid spraying when bees are actively foraging.

TOXICOLOGICAL CONSIDERATIONS: ALFACYPER-M is moderately toxic. Skin contact may cause allergic sensitization. ALFACYPER-M can irritate eyes.

POISONING SYMPTOMS: Nervousness, anxiety, ataxia, muscular tremors, convulsions, manifestation of allergic conditions and weakness of the limbs.

ANTIDOTE: No specific antidote known. Treat symptomatically.

DOCTOR'S NOTE: If swallowed administer gastric lavage with care to avoid aspiration. Phenobarbital or diphenylhydantoin or a mixture of both may be given. Antihistamine may be given to alleviate allergic conditions if any appear. Treat the patient symptomatically.

#### FIRST AID

1. If swallowed induce vomiting by tickling back of throat repeatedly until vomit is clear.
2. Remove contaminated clothing and wash skin with soap and plenty of water.
3. If eyes are contaminated flush with plenty of saline/clear water for 15 minutes.
4. If inhaled, remove patient to fresh air.
