 PEST CONTROL PRODUCTS BOARD

DESCRIPTION: Alpha Cymba 10EC is an insecticide for the control of thrips, aphids and whitefly on roses; aphids, whiteflies, thrips, caterpillars and cutworms on Snow peas; Cutworms, DBM and aphids on kales; White flies, bollworms, caterpillar, aphids and thrips on greenhouse pepper
MODE OF ACTION: Non-systemic insecticide with contact and stomach action. It has a quick knock-down and long residual activity which acts on the central and peripheral nervous system of insect pest in very low dosage.
TIMING OF APPLICATION
Spray Preparation: Mix the required quantity of Alpha Cymba 10EC with enough water to make slurry. Add the remaining volume of water while agitating and keep agitating as you spray.
Spraying: Apply at first sign of insect pest attack then repeat when necessary.
Spraying Equipment: For the application of Alpha Cymba 10EC hand held knapsack sprayers, tractor boom sprayers and aircraft can be used.
