

ALPHAGUARD 10EC is a broad spectrum insecticide containing *Alphacypermethrin* which is a *Synthetic Pyrethroid* for control of *Beanflower Thrips* on French Beans.

DIRECTION FOR USE

Crop	Pest	Rate	P.H.I.
French Beans	Beanflower Thrips	4-5ml in 20L	1-3 days

APPLICATION METHOD: Take the required quantity of **ALPHAGUARD 10EC** and dilute it with a little amount of water and stir well. Add required amount of water as per spray volume required to ensure full plant cover. The lower rates of 4ml per 20L of water can be used under very low pest pressure, and 5ml per 20L of water under high pest pressure.

SPRAY INTERVAL: One or two applications every 7 to 14 days depending on the rate of infestation.

PRECAUTION: Avoid contact with skin and eyes. Do not eat or smoke when applying this chemical. **ALPHAGUARD 10EC** is dangerous to fish and other aquatic organisms. Toxic to bees.

ENVIRONMENTAL HAZARDS: Do not contaminate ponds, water ways or ditches with the product or used containers. Do not apply when bees are actively foraging.

DISPOSAL INSTRUCTIONS: Rinse thoroughly and destroy containers to prevent reuse by burning in a suitable incinerator or bury away from water sources and human habitation.

LEAKAGE AND SPILLAGE: If leakage of the liquid occurs, soak up material with sand, soil or saw dust. Collect this contaminated material and bury in a safe place. Wash the contaminated areas thoroughly with soap and water. No burning of these material and containers should take place.

FIRST AID INSTRUCTIONS: Skin Contact: Remove all contaminated clothes and shoes. Wash off immediately with soap and plenty of water (15-20minutes). Get medical attention immediately. **Eye Contact:** Flush eyes with tap water for at least 15min. Consult an ophthalmologist. **If Inhaled:** Remove from exposure area to fresh air immediately. If breathing has stopped, perform artificial respiration. Keep person warm and at rest. Treat symptomatically and supportively. Get medical attention immediately. **If ingestion:** Drink 1 or 2 glasses of water. Induce vomiting by touching back of throat with finger or blunt object. Do not induce vomiting or give anything by mouth to unconscious person. Consult a physician.

TOXICOLOGICAL INFORMATION: It is moderately hazardous, dermal contact may cause allergic sensitization, eye contact may cause irritation.

SYMPTOMS OF POISONING: Nervousness, Anxiety, Convulsions, Allergic Manifestations.

Antidote: No known antidote.

NOTICE TO DOCTOR: Treatment: Treat symptomatically.

In case of poisoning, call the 24 hour Toll Free Number; 0800720021/0800730030 for professional advice.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on this label. It is an offence under the pest control product act to use or store pest control product under unsafe conditions.

WARRANTY: Sellers guarantee is limited to the terms set out in the label. The buyer assumes the risk to the persons or property arising from the use of this product and accepts the product on that condition.
