

General information: Amimax 720 WP is a contact and systemic fungicide for the control of downy mildew on Roses; Early and Late Blight on Tomatoes and Potatoes. It has protective action

Mode of Action: Amimax 720 WP has contact and systemic action.

Direction for use:

CROP	DISEASE	RATE
Roses	Downy mildew	2kg/ha
Potato and Tomato	Early and Late Blights	40gms/ 20L water

Re-entry: 6 hours or on drying, after spraying in the field.

Pre-harvest interval: 14 days for potato and tomatoes; for potato when Amimax 720WP is used upto 70 days after planting.

Application timing and technique: Amimax 720 WP can be used during all vegetative periods of the crops 3 times. It is applied before or after infection, at 10 days intervals.

Preparation of spray mixture: Fill spray tank with half the amount of required water. Add required amount of Amimax 720 WP and fill the water to the required level. Agitate to ensure thorough mixing.

Phytotoxicity: Amimax 720 WP is not phytotoxic when used as recommended.

Resistance management: To prevent risk of developing pest resistance, it is recommended that Amimax 720 WP be alternated with products of different modes of action.

HAZARDS/PRECAUTIONS

Handling
Wear protective clothing: overalls, footwear, gloves, and face shield when preparing and using the product. Do not eat, drink or smoke while using it. Avoid inhaling spray mist, contact with skin, eyes and clothing. Do not apply upwind and stay out of the spray mist.

After Work
Wash hands before breaks and at the end of work. Change clothes and wash hands and face with soap and water thoroughly. Wash the spraying equipment and any contaminated clothing carefully.

Storage
Keep out of reach of children. Store in tightly closed original container in a cool dry and well ventilated place, under lock and key so that unauthorized persons do not have access. Keep away from food, drinks and animal feeds. Keep away from sunlight, excessive heat and open flame.

Disposal
Triple rinse the pouch and puncture or perforate it. Dispose off in a landfill site approved for pesticides or bury away from water resources or return to stockist/distributor. The residue should be disposed off away from surface water to avoid contamination. Do not re-use the empty container for any other purpose.

Wildlife and Environmental Protection

Amimax 720 WP is slightly toxic to fish and birds. Do not contaminate streams, rivers or waterways with the chemical or used containers.
