GENERAL DESCRIPTION : APHITECH contains the parasitic wasp *Aphidius transcaspinus* that attacks several species of Aphids in french beans. Female adult parasitic wasp parasitizes the aphid. Parasitized aphid swells and hardens into a leathery, grey or brown colored mummy. The adult parasite emerges through a round hole at the rear of the mummy. The first mummies can be seen on the crop approximately two weeks after first introduction.

APHITECH

A parasitic wasp for the control of Aphids on French Beans. Wadudu waoneangamiza wadudu wengine waanibhu k. x. Aphids kwa maharagwe
GUARANTEED(DHAMANA): 100 *Aphidius transcaspinus* Mixed with 400mls of Bran
COMMERCIAL AND AGRICULTURAL CLASS
(KUNDI LA BIA SHARA NA KILIMO)
REGISTRATION NO. (NAMBA YA USAJILI): PCPB (CR) 5335

Batch No.: See bottle (Nambani ya kifurusi/ji)
Production Date: See bottle (tarehe ya kuzalisha):
Shelf life (Malisha rafuni): 48 Hours after receipt of product when stored in a cool, dark place (13 - 20°C). Masaa 48 baada ya kupokea hwapo kihifadhiwa mahali pakavyu na bandi (nyuzi 13 - 20°C).

CAUTION

READ THE LABEL BEFORE USE (SOMA KIBANDIKO KABLA YA KUTUMIA) KEEP LOCKED & OUT OF REACH OF CHILDREN (WEKA MBALI NA WATOTO)

GENERAL DESCRIPTION : APHITECH contains the parasitic wasp *Aphidius transcaspinus* that attacks several species of Aphids in french beans. Female adult parasitic wasp parasitizes the aphid. Parasitized aphid swells and hardens into a leathery, grey or brown colored mummy. The adult parasite emerges through a round hole at the rear of the mummy. The first mummies can be seen on the crop approximately two weeks after first introduction.

DIRECTIONS FOR USE: Mix thoroughly by rotating the bottle before opening, this will loosen the bran mix and also aid in redistributing the *Aphidius transcaspinus* within the bottle. Open the lid and sprinkle 2 to 2.5 ml equivalent per crop canopy.

CROP	TARGET PEST	RATES / ha
French Beans	Aphids	10,000 wasps / ha

HAZARDS/PRECAUTIONS: APHITECH is not hazardous to man, aquatic and terrestrial animals.

COMPATIBILITY & SIDE-EFFECTS: APHITECH may be used alongside other beneficial insects in order to create a biological system for IPM. Certain agrochemical products have negative side-effects on *Aphidius transcaspinus*. Please refer to the Side Effects Guide issued by Dudutech in order to see which products are compatible/not compatible, or visit our website www.dudutech.com for more details.

STORAGE & HANDLING : Store in a cool dark place at 13-20°C with the product bottle placed horizontally. Highly perishable. Use within 48hrs upon receipt

DISPOSAL: Packaging materials may be returned to Dudutech division for re-use or destruction.

FIRST AID INSTRUCTION: APHITECH Aphitech is not known to have any side effect to man. However in case of any emergency, treat symptomatically.

TOXICOLOGICAL INFORMATION: This product is not hazardous if in contact with the skin, inhaled or swallowed, and may be used without protective clothing. However in case of emergency, call toll free No. 0800720021 or 0800730030 (24 hr)

NOTICE TO THE USER: This pest control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use or store a product under unsafe conditions.

SELLER'S GUARANTEE (WARRANTY): Seller's guarantee is limited to the terms set out on the label and subject thereto. The buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
