OSHO CHEMICAL INDUSTRIES LTD. MOMBASA, KENYA

DESCRIPTION: AQUAWET 15SL is an Adjuvant for use as wetter/spreader on Roses with Cotaf 5 EC PCPBCR0493 to control powdery mildew and rust; and with Atom 2.5 EC PCPBCR0760 to control aphids on French beans and roses.

Wetting: Water bead without the addition of a surfactant. Poor wetting, water does not spread, higher surface tension. Water bead with the addition of an AQUAWET 15SL. Good wetting, water can spread, lower surface tension.

AQUAWET 15SL improves the spreading properties of pesticides and fertilizers thus improving their efficacy. It may also be used for cleaning spraying equipment.

DIRECTIONS: For best results, add AQUAWET 15SL to the spray water and stir thoroughly before adding other chemicals.

RATES OF USE:

| PRODUCT | CROP | RATE |
|--------------------------|------------------------|-----------------------------------------------|
| Cotaf 5EC (Fungicide) | French beans and roses | 5-10ml in 20l Spray Tank (250-500ml/1000Ltr) |
| Atom 2.5EC (Insecticide) | French beans and roses | 10-15ml in 20l Spray Tank (500-750ml/1000Ltr) |

LIMITATIONS: Read the pesticide label carefully before use and use only where a wetter/spreader is recommended.

CAUTION: AQUAWET 15SL increases the efficacy of the chemicals by improving wetting and sticking properties, therefore exercise caution to avoid an overdose.

PRECAUTIONS: Avoid contact with skin and eyes (may cause irritation). Do not eat, drink or smoke while handling this product. Wear protective clothing; overall, hat/head dress, gumboots, gloves masks etc. Wash with soap and water after handling this product. Remove contaminated clothing and wash them before re-using.

STORAGE AND DISPOSAL: Store in original tightly closed container in a cool, dry and well ventilated place away from children, livestock and foodstuff. Triple rinse empty container and add washings to spray mixture, then dispose empty container in a safe and authorised place away from human habitation and water sources, in accordance with national regulations and legislation. Do not reuse containers for any other purpose.

ENVIRONMENT: AQUAWET 15SL is non-toxic to bees and earthworms. However, do not contaminate streams, rivers or ponds with the remainder of this product.

FIRST AID INSTRUCTIONS: If swallowed: Give large quantities of activated charcoal in water. If inhaled: Move affected person into fresh air immediately. If in contact with skin: Wash contaminated skin with clean water and soap. If in contact with eyes: Flush eyes with plenty of water. Seek medical attention immediately.

Antidote: No specific antidote.

Notice to Physician: Treat symptomatically.

In case of Emergency Call Toll free No. 0800720021 or 0800730030 (24 hrs)

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use or store a pest control product under unsafe conditions.

WARRANTY: Seller's guarantee is limited to the terms set out on the label and subject thereto. The buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
