**DESCRIPTION:** ATOM 2.5 EC is broad spectrum contact insecticide which controls a wide range of insect pests, by contact and stomach poisoning.  
**DIRECTIONS FOR USE:** Use water volume of 1000 liters per hectare and ensure thorough coverage of all plant parts while spraying. Treatment should commence as soon as the pests are observed.

CROP	PEST	APPLICATION RATE	INTERVAL
French beans	Thrips, Aphids	10-15ml/20L water (500ml/Ha)	10-14 days
Roses	Caterpillars, Aphids	50ml/100L water	10-14 days

Preharvest interval (P.H.I.): 1 day. RE-ENTRY PERIOD: 12 hours.

ATOM 2.5 EC applied at the recommended rate and when ambient temperatures are below 25°C does not have phytotoxicity on the plant. However, always try for varietal tolerance on a few plants.

**PRECAUTIONS:** Wear suitable protective clothing e.g. face shield for eye/face protection, gloves and masks when handling the concentrate and mixture. Do not smoke, eat or drink when handling. Harmful if swallowed or inhaled and may cause irritation on contact with skin and eyes. Risk of serious damage to eyes. Do not spray against the wind. Wash with soap and water and change clothes after application.

**ENVIRONMENTAL HAZARDS:** Avoid spraying when bees are foraging. ATOM 2.5 EC has little toxicity to animals but avoid direct spraying on grass or animal feeds. Toxic to fish and other aquatic micro-organisms. Do not contaminate ponds or water sources with chemical or used containers.

**STORAGE AND DISPOSAL:** Store in original tightly closed container away from children, livestock or foodstuff, in a cool dry, dark and well ventilated place. Flammable- Store away from any source of ignition. Triple rinse empty container and add washings to spray mixture, then puncture and burn or bury container away from water sources or human habitation. Do not reuse containers for any other purpose.

**FIRST AID INSTRUCTIONS:** Inhalation: Remove victim to fresh air. Skin contact: Remove any contaminated clothing. Wash with soap and plenty of water. Eye contact: Wash eyes with running water for at least 15 minutes and refer victim to doctor. If Ingested: Induce vomiting by touching the back of the throat with a clean finger. Do not give anything by mouth to an unconscious person.

**REFUSE VICTIM TO THE DOCTOR. TOXICOLOGICAL INFORMATION: Symptoms of poisoning:** Nervousness, anxiety, tremors, convulsions. Antidote: No specific antidote. Treat symptomatically.

**NOTES TO PHYSICIAN:** Induce vomiting by syrup of Ipecac (Adults and older children -30ml Children under 12 years -15ml) followed by 1-2 glasses of water. Give 30-50gm of activated charcoal in 90-120ml water to limit absorption of remaining toxicant. Treat symptomatically.

**In case of Emergency Call Toll free No. 0800720021 / 0800730030 (24 hrs) NOTICE TO USER:** This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use or store a pest control product under unsafe conditions.

**SELLER'S GUARANTEE (WARRANTY):** Seller's guarantee is limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
